

Research Handbook on EU Energy Law and Policy

Research Handbooks in European Law series

Edited by **Rafael Leal-Arcas** and **Jan Wouters**

This authoritative Research Handbook presents, for the first time, a comprehensive overview of the most important research and latest trends in EU energy law and policy. It offers high-quality original contributions that provide state-of-the-art research in this rapidly evolving area, situated in the broader context of international economic law and governance.
